

## TRANSFORMING THE HEART

Join us in a powerful heart-encounter with God that senior leaders describe as “an incredible experience,” “powerful, profound and accessible,” and “hugely transformational!” *Transforming the Heart* shows how to implement Jesus’ method of change—one that starts with desire fulfilled—to lead your team into a culture of transformation.

Jesus taught that actions ultimately come from the heart. *Transforming the Heart* is about becoming aware of what is really driving us, meeting God in that place, and bringing lasting change by dealing with all levels of the heart:

- **Desires** (like love or significance) filled in relational encounters with God
- **Identity** (wounds, memories, beliefs) reformed through experiential truth
- **Behavior** aligned with the renewed heart through discipline

In this 3-½ day workshop with 12 weeks of coached follow-up, you’ll learn a whole array of practical change tools from God encounters to coaching skills, and practice using them with others. Presented in a highly-interactive, innovative format, the course uses the arts, activations, intercession, demonstration, practice and discussion to create deep encounters with the incredible goodness of God.

## PRESENTER

Master coach and leadership trainer [Tony Stoltzfus](#) brings to bear a lifetime of experience in heart transformation, including coaching and training thousands of senior leaders to encounter God powerfully in difficult situations.

*“Tony Stoltzfus is one of the most genuine, caring, skilled and helpful people you are ever likely to meet... His passion for each person to experience the healing, empowering love of Jesus is only second only to his own passion to know the Lord himself.”*

Danny Silk, Bethel Church, Redding, CA
